## Analysis of Club and Dance Attendance

September to December, 2009

Ray Olszewski <ray@comarre.com>

For this initial review of attendance at Midnight Squares events, I looked at 4 types of event;

**any class:** the current A2, C2, and C3A classes (as member or angel)

**Sunday club:** the last Sunday club event before the classes started, a C2/C3A session on September xx, as signed up on eVite (yes and maybe)

**Thursday club:** all Thursday club events from October on, including the ones that were canceled, based on Socializr signups (yes and maybe)

**Bill Eyer C2/C3A dance:** actual attendance as recorded by me (I was not at the A2/C1 dance so could not record its attendance)

I classified each person by location of home, as San Francisco, San Mateo, Santa Clara, North Bay, East Bay, Sacramento, and other (this last one just for Benny Sevilla). Two names had no addresses associated with them so are recorded as unknown.

### Overall Results
